Is your computer running slow? When was the last time you had any sort of maintenance performed on it?

Maintaining your computers is just as important as changing the oil in your car. Periodic computer maintenance prevents costly computer repair bills.

Maintenance includes services like:

Windows Registry Cleaning
Junk File Removal
Removing Unnecessary Startup Programs
Hard Drive Defragmenting
Security Updates
Security Scanning
Application Updates

Javanet Systems IT offers both periodic computer tune ups and monthly maintenance programs to help keep your computer working at its best.

Call Javanet Systems and ask for a Computer Tune Up. For one low price your computer will receive the attention that it desperatetly needs.

Our Maintenance Plans provide you with monthly services that keep your computer running at peak performance all of the time.
In addition to regular monthly maintenance, our Maintenance Plan customers receive a dramatically discounted rate on services and receive a guaranteed response time to support requests.

With Javanet Systems installing your new equipment or software, you will rest assured knowing that it will be done right the first time.
From a single computer to complex office network installations, Javanet Systems can handle the job.
